Attachment GC-32

Su

Personal and Social Capability

Learning in Personal and Social Capability

The Personal and Social capability focuses on the recognition and expression of emotions, the development of resilience, and the appreciation of diversity of gender, age, language, culture and religion. Students explore the importance of a range of social relationships, including within families, peer groups and the community. They are also enabled to identify and manage emotional responses in a range of contexts.

Learning in Personal and Social capability is strongly connected to many other areas of the curriculum. Health and Physical Education, in particular, enables students to develop knowledge of recognition of personal qualities, awareness of identity and establishment and maintenance of respectful relationships.
