

ATTACHMENT MF 1

This is the attachment marked "**MF 1**" referred to in the witness statement of Mark Feinberg dated 9 July 2015.

Mark E. Feinberg, Ph.D.

Research Professor
Prevention Research Center
Dept of Human Development & Family Studies
Pennsylvania State University

300 Biobehavior Health
University Park, PA 16802
Email: [REDACTED]

EDUCATION

Harvard College, B.A., *Summa Cum Laude*, 1985.

Vermont College, M.A. in Art Therapy, 1992.

George Washington University, Ph.D., clinical psychology, 1998.

Other:

Shaw Graduate Fellowship, Study of racism in Europe, 1985-1986.

The Family Therapy Institute of Washington D.C., 1996-1997.

Implications of Genetic Variance for Substance Use Interventions in Adolescence

Investigation of the interaction of genes and environmental factors in predicting adolescent substance use in the context of the PROSPER study. Environmental factors include the intervention condition, family processes, and peer relations and networks.

Role: Co-investigator

R21HD072394 (Feinberg, PI) 08/01/13–07/31/15
 NIH/NICHD \$223,500

Military Family Foundations: Adapting an Evidence-based Family Prevention Program

To enhance the well-being and resilience of Reserve and National Guard families, we are adapting a civilian evidence-based, family-strengthening program, Family Foundations (FF), and assessing the feasibility of implementing it with Reserve and Guard families.

Role: PI

R01DA018225 (Osgood, PI) 09/30/04–05/31/18
 NIH/NIDA \$418,349

Friendship Networks and Emergence of Substance Use

An investigation of friendship networks and their relationship to substance use in 28 communities as they evolve from the 6th through 12th grades.

Role: Co-Investigator

R01DA13709 (Spoth, PI) 09/01/07–02/28/16
 NIH/NIDA \$150,984

Partnership Model for Diffusion of Proven Prevention

The major goal of this project is to assess the effectiveness of a model for the diffusion of empirically-validated prevention programs focused on adolescent substance abuse and mental health. The project is conducted in 14 communities in Iowa and Pennsylvania.

Role: Co-Investigator on Penn State Subaward

Grant # 212.0235 (Chilenski, PI) 04/01/12–12/31/15
 Annie E. Casey Foundation \$200,000

Taking a Close Look at the Implementation of Evidence2Success

The Prevention Research Center at Penn State has been awarded a grant to evaluate the implementation of the Evidence2Success pilot. A mixed-method quantitative and qualitative assessment of the Evidence2Success process is part of this effort in the first city involved in the project.

Role: Investigator

R03DA034664 (Frank, PI) 02/01/15–01/31/17
 NIH/NIDA \$75,350

Longitudinal Effectiveness of Communities That Care on Reducing Youth Risk Factors

In this project we will look at the effectiveness of the Communities That Care model (CTC) over time on youth risk and youth risk and protective factors, ATOD (alcohol, tobacco, and other drug) use, youth mental health, bullying, and gambling behaviors.

Role: Co-Investigator

R01HD081361 (Nix, PI) 07/01/15–06/30/20
 NIH/NICHD \$3,686,611 (all years)

Promoting Self-Regulation Skills and Healthy Eating Habits in Early Head Start

This preventive intervention uses ten food preparation lessons, delivered as part of Early Head Start home visits, to help low-income parents sensitively scaffold the development of toddlers' self-regulation skills.

Role: Co-Investigator

Completed Research

R01 HD058529-01A1 (Feinberg, PI)
NIH/NICHD

06/08-01/15

Promotion of Coparenting at the Transition to Parenthood

Test of an intervention to promote healthy family functioning during the transition to parenthood. The intervention, integrated in childbirth class series, is grounded by a theory of coparenting as a key construct mediating and moderating risk factors for negative parenting and child behavior problems.

R21 HD060124-01 (Feinberg, PI)
NIH/NICHD

06/08-01/14

Transition to Parenthood: Change in Couple Daily Stress Processes & Mental Health

An exploratory study of daily stress processes and emotional well-being among couples across the transition to parenthood. The study will longitudinally examine links between daily stressors, couple functioning, and depression/anxiety in the context of a randomized trial of an intervention previously shown to reduce maternal depression and enhance inter-parental relations.

(Feinberg: subcontract PI)
UK Department of Education

04/11-03/14

Dissemination of Family Foundations in UK

Adaptation of curriculum and development of train the trainer model for widespread dissemination of Family Foundations in the UK. Subcontract through the Fatherhood Institute.

5R21AA018309-02 (Feinberg, PI)
NIH/NIAAA

08/09-08/12

Examining Key Assumptions: Prevention of Alcohol Use

Examination of the empirical validity of 5 key assumptions regarding the epidemiology of adolescent alcohol use that underlie current federal and state policies toward community-based prevention of alcohol use and other problem behaviors.

R01DA018225-01A2 (Osgood, PI)
NIH/NIDA

08/01/07 – 07/31/12

Friendship Networks and the Emergence of Substance Use

This project consists of secondary data analysis of the longitudinal peer network data collected from youths involved in the PROSPER project. These analyses will examine the extent to which friendship similarity for substance use is the result of influence or selection processes, and whether these processes differ across communities.

Role: Co-PI

5R01DA025035-02 (Feinberg, PI)
NIH/NIDA

06/09-05/12

Pilot Study of Sibling Prevention Program

Test of a universal program developed to enhance family protective factors near the end of elementary school, thereby buffering children from the elevated risks of substance use and associated problems that will soon emerge in early adolescence.
