

①

The system has failed many women and I am no different. Having endured 13 years of family violence I was not finished thinking an IVO would be the solution.

1. The court Re-traumatised my children and I.
2. Weak outcomes
219 charges to
IVO breaches = \$200 fines.
3. Numerous appeals by perpetrator financially disadvantaging me.
4. Lawyers do not understand family violence.
5. 10 years in court through appeals by perpetrator.

6. Family report writers DR. [REDACTED]
 very biased, unfair not professional.

7. Family Violence made into a money making business

8. After my Family violence experiences I have been able to become a Media advocate and start my own Foundation. The system will always fail until

1. Perpetrators are made accountable

2. Legal Firms are not allowed to

Financially abuse women.

3. Family Violence Cases are not to be adjourned.

4. IVO taken seriously

5. Community Education etc

②

We are a multicultural society but we are cross-culturally illiterate. We do not yet understand that these men know how to work the system and this country is allowing them to get away with so much.

Human Rights were not considered in my case. I was not given justice and as a result was financially abused and this was allowed as the system failed to understand my perpetrator continued to use the court system to further empower himself.

Despite leaving the abuse the system continues to fail many.

Too many lives have been destroyed and nothing can fix the damage.

The system is a failure.

- ① No accountability
- ② Weak sentencing
- ③ Long court cases
- ④ No family violence awareness
- ⑤ No humility, empathy.

(3)

Family violence has taken away
my future and the system is
100% blame!
